EXPERIENCE

Avis Technologies

Frontend Web developer Intern| October 2021

- Designed, implemented, and monitored web pages and sites for continuous improvement.
- Provided user support to clients, which included training, education, and answering questions.
- Used PHP, SQL, JavaScript, and other libraries' programming capabilities as needed.
- Pitched in to help senior developers meet tight deadlines during periods of low staffing.
- Researched new technologies, software packages, and hardware products for website projects.
- Designed and built optimized landing pages in HTML and CSS, including integration and cross-browser compatibility to support marketing.

- • Performed unit testing to ensure that the browser's functionality was as good as it could be.
- • Used HTML and CSS to create the site's layout and user interface.
- • Created landing pages, dashboards, and online applications using HTML, CSS, and JavaScript.
- • Looked over the code to make sure it was correct in terms of structure, security, and browser, device, and operating system compatibility.
- • Tested websites and performed troubleshooting prior to deployment.
